PROFESSIONAL SUMMARY

Software Engineering student with practical experience building full-stack web applications using the MERN stack. Confident in managing application state, building secure REST APIs, and connecting frontends with databases. Strong problem-solving skills with a solid foundation in Data Structures and Algorithms (DSA).

TECHNICAL SKILLS

- **Frontend:** React.js, Redux Toolkit, React Hooks, State Management, API Integration, CSS
- **Backend:** Node.js, Express.js, REST APIs, Custom Middleware, JWT Authentication
- **Database:** MongoDB, Mongoose (Schema Design, CRUD Operations)
- **Languages:** JavaScript, Python, C++, Java
- **Tools:** Git, GitHub, Postman, Linux (Ubuntu, Fedora)

PROBLEM SOLVING

- **LeetCode:** Solved **200+ Data Structures & Algorithms (DSA) problems**, proving strong logic and coding skills.

CERTIFICATIONS

- **Information Technology Specialist: Python** — *Certiport (A Pearson VUE Business)*
 - **Offered via:** National Vocational and Technical Training Commission (NAVTTTC), Pakistan.

PROJECTS

GourmetKitchen – Recipe Sharing Platform (Full-Stack MERN)

- Added user authentication and login security using JSON Web Tokens (JWT).
- Designed MongoDB database collections and schemas to create, read, update, and delete data smoothly.
- Handled image and file uploads from users on the backend.

Recipe Book System (Backend & Core Fundamentals)

- Created secure REST API endpoints to handle robust server-to-client data communication workflows.

E-Commerce Application (React + Redux Toolkit).

- Optimized how components load and share data to make the user interface fast and responsive.

Chatbot Interface (React Frontend)

- Implemented frontend input handling to manage conversation flow and display specific, structured system replies.

EDUCATION

Islamia College University Peshawar — *Pakistan Bachelor of Science in Software Engineering* | 6th Semester (Expected Graduation: 2027)
